## EDUCATION

### 2022 - 2025 POLYTECH GRENOBLE

- Engineer's Degree in Computer Science

### 2020 - 2022 IUT BLAGNAC

- Associates degree in computer science

### 2019 - 2020 LYCÉE PLATEAU BENSOUDA

- Baccalaureate in Science and Mathematics, with honors

## SOFT SKILLS

- Adaptability
- Organization
- Teamwork
- Time Management
- Autonomy
- Continuous Learning

## LANGUAGES

- English : Level C2
- French : Level C2

## PROFILE

Final-year computer engineering student, 21 years old, passionate about software development and learning new programming languages. I have valuable experience in managing technical projects and am constantly motivated by the realization of innovative solutions. Having lived in France since the age of 17, I actively pursue my professional goals in an international environment. Feel free to check out my portfolio to see my personal projects and get an overview of my work. I am willing to relocate.

## PROFESSIONAL EXPERIENCE

- Supernova** April 2024 - August 2024  
Project Manager and Full-Stack Developer (Intern)
  - Designed and defined the application needs in collaboration with the team.
  - Selected appropriate technologies (Angular, Node.js, MySQL) based on project requirements.
  - Utilized agile development methods (SCRUM) to create a platform that connects lighting suppliers with architects, including a project management feature.
  - Led the deployment and production rollout of the web application.
- Flop!EDT** June 2022 - August 2022  
Full-Stack Development Internship
  - Collaboratively planned sprints for the design and implementation of an advanced feature for data retrieval, sorting, and filtering in a scheduling management application.
  - Developed this feature using Django for the backend, D3.js for data visualization, and MariaDB for database management.
  - Design and execution of unit and integration tests, followed by the deployment of the new feature to production.

## TECHNICAL SKILLS

- Versioning and Automation Tools : **Git, Maven, Gradle, Ant.**
- Database Management : **SQL, MySQL, MariaDB, JSON.**
- Front-end Development : **HTML, CSS, JavaScript, React.js, Vue.js, Bootstrap.**
- Back-end Development : **PHP, Node.js, Express.js, Symfony, Django, .NET, Spring.**
- Programming Languages : **C, C++, Java, Python, C#, .NET.**
- Continuous Integration/Continuous Deployment (CI/CD)
- DevOps Practices
